

A Speedy Cure for
Constipation, Biliousness, Dyspepsia, Indigestion,
Liver Complaints, Tired Feeling, Bad Taste in
the Mouth, Bad Complexion, Nervousness and all
diseases of the Stomach, Liver and Bowels.

"Bloodine Liver Pills"
act gently, yet thoroughly upon the bowels, liver,
stomach and digestive organs. The pills, in old
and chronic cases of constipation and indigestion,
act at once, without griping, nor do they leave any
unpleasant after-effects, nor form a constant habit
of purging, produced by other cathartic remedies.

"Bloodine Liver Pills"
restore the deranged and torpid liver to its normal
condition and healthful action. Remove and pre-
vent constipation by securing a natural and regu-
lar operation of the bowels, and relieve those un-
pleasant symptoms which attend a diseased or
morbid condition of the liver, stomach and bowels.
To assist in attaining this end, the following sug-
gestions are offered.

REMARKS. Everyone who uses pills for
their action on the liver, should know that large
doses rarely prove as satisfactory as small ones.
Large doses simply purge and pass out of the sys-
tem, usually leaving the bowels constipated, and
seldom removing the cause of the trouble, or im-
prove the general health. On the other hand,
small doses develop the alternative effect of the
medicine, do not irritate or constipate the bowels,
but gently stimulate the liver and prevent the
accumulation of bile by directing its flow into the
proper channels. Therefore it is advisable to com-
mence by taking not over one or two pills at bed-
time and increase dose as necessary.

PORTLAND, ME.
GENTS:—I find your "Bloodine Liver Pills" the
most effective pill I ever used. They cause no
griping or constipative after effect as most liver
pills do.
Yours truly,
MRS. AMADA RICHARDSON.

Be Happy!

Happy the girl, or woman, who has never suffered from
any of the diseases of womanhood! Or, if she has been a
sufferer, happy is she if she has learned of the wonderful
benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments.
It is a natural medicine—safe, harmless, purely vegetable.
It has been in successful use for more than 50 years. It
has cured thousands. It should do the same for you.

TAKE
CARDUI
The
Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think
there is no tonic on earth, as good as Cardui. I used it
with the very best results. I had backache and nearly
everything a woman could suffer with, until I took Cardui.
Now, I feel better than I have for two years. I shall
always recommend Cardui to other suffering women. I
can't praise it too highly. As a medicine for weak, tired,
worn-out women, Cardui is safe and reliable. Try it, today.

ONE MILLION DOLLARS
FOR A GOOD STOMACH

This Offer Should be a Warning
To Every Man and Woman.

The newspapers and medical jour-
nals recently have had much to say
relative to a famous millionaire's offer
of a million dollars for a new stomach.

This great multi-millionaire was too
busy to worry about the condition of
his stomach. He allowed his dyspepsia
to run from bad to worse until in the
end it became incurable.

His misfortune serves as warning to
others.

Everyone who suffers with dyspepsia
for a few years will give everything
he owns for a new stomach.

Dyspepsia is commonly caused by an
abnormal state of the gastric juices,
or by lack of tone in the walls of the
stomach. The result is that the
stomach loses its power to digest food.

We are now able to supply certain
missing elements—to help to restore
to the gastric juices their digestive
power, and to aid in making the
stomach strong and well.

We know that Rexall Dyspepsia Tab-
lets are a most dependable remedy for
disordered stomachs, indigestion and
dyspepsia.

We want you to try them, and will
return your money if you are not more
than satisfied with the result.

Three sizes, 25 cents, 50 cents and
\$1. Remember, you can obtain Rexall
Remedies in this community only at

Soliciting to Pay Debt.

The Richmond Register says: "A
meeting of base ball enthusiasts was
held Monday evening at the Elks Club,
and plans were discussed for raising
funds to meet the deficit in the Pion-
neers' treasury. The club is about
\$1,200 behind and a committee was
appointed to solicit contributions from
everybody in town to make up this
loss. This is the only way in which
it can be done. Unless this old debt is
paid, it is useless to talk about base
ball next year. So it is earnestly hoped
that all who are approached for this
purpose will contribute liberally, and
thus insure a continuance of the Rich-
mond club in the Blue Grass League."

"Thais."

A sensation followed the announce-
ment that Paul Winstach, author of
"The Life of Richard Mansfield," and
associated with the famous actor for
eight years during his tours of Ameri-
ca, had written a drama based on
"Thais" which will be seen for the
first time in Cincinnati at the Grand
Opera House, week of October 9, un-
der the management of Joseph M.
Gaites, with Miss Constance Collier in
the name part.

Mr. Winstach has closely followed the
scenes as they appear in the novel.
Anatole France, one of the greatest of
living literary workers, is the author
of the novel, which became the basis
for the opera by Jules E. F. Massenet,
which achieved such popularity in this
country when sung by Miss Mary Gar-
den.

The book is a magnificent piece of
literature, and the opera has many
things to relieve it of harsh criticism
and much that is truly beautiful.

Many thought the dramatization of
the beautiful opera would be a thank-
less one, but Mr. Winstach is a daring
chap and Mr. Gaites is what is known
as "game," so the production went
forward and the outcome is well known
for after the first performance "Thais"
was a distinct dramatic triumph.

Few operas have been dramatized.
Merimee wrote "Carmen" in 1845, but
it was fifty years before anyone under-
took a dramatization of the story for
the stage. In 1895 Miss Olga Nether-
sole commissioned Henry Hamilton, a
British writer, to make such a version
for her use, and as all the world knows
today it proved one of the most suc-
cessful plays ever written by a modern
author. Miss Nethersole, alone, has
played it over 1500 times, and was the
first actress to appear in the part in
Paris; although it was 62 years after
the novel was written, and it has been
one of the most popular works in the
entire repertory of French operas.

It may have been a recollection of
this episode that stirred Mr. Winstach
to action with "Thais."

As a usual thing, however, it is not
counted a good business risk to drama-
tize themes that are familiar with a
musical accompaniment. But Mr.
Gaites made arrangements with Mas-
senet for the use of his score for en-
tract music, so this latter is an im-
portant feature of the dramatic
"Thais."

"Thais" is a story showing the an-
chorites of the ancient Theban desert.
The piece takes its name from a beau-
tiful creature, as sinful as she is beau-
tiful. There comes to her a hermit
who seeks to convert her from her
wicked life. He preaches and prays and
encures the temptations that befel
Parisul. Finally he yields but when
he has come thoroughly under the in-
fluence of "Thais," and has lost his
soul, she suddenly awakens to the new
life, has heard his teachings and plead-
ings, and goes to the "White Sisters"
on the African shore of the Mediter-
ranean.

Mr. Gaites, in addition to Miss Col-
lier, has engaged Tyrone Power to ap-
pear in the part of the hermit. And
Julian L'Estrange to play the part of
Nicias, the favorite lover.

"Thais" is produced with a wonder-
fully beautiful scenic investiture and
will be the treat of the theatrical sea-
son. Matinees will be given on Wed-
nesday and Saturday.

Mail orders will receive prompt at-
tention, if they contain certified check,
postal or express orders, payable to
Theatre. If parties desire tickets mail-
ed, self-addressed envelope must ac-
company order, thus avoiding possi-
bility of error. Special attention will
be given to all out of town orders. Special
round trip excursion rates will be
given on all railroads. For infor-
mation regarding fares and schedules
of trains consult local agent.

Jerseys. The sale was made after the

Cabinet, and Dr. Emilio T. Luaces,
professor of agriculture in the govern-
ment experiment station at Santiago
de las Vegas, had made a personal in-
spection of all the best herds in the
country.

—Farmers are not accustomed to
count the cost of keeping a few idle
horses around for weeks or even
months. Many would be surprised to
find what a horse's board bill amounts
to even on light grain feed, although
it would not be so serious on a farm
as in this instance of discarded city
horses. There were fifteen aged horses
which the city of Chicago no longer
needed in the municipal business, so
according to law they were advertised
for sixty days and the bids then were
opened. On a basis of actual cost of
feed and care the expense to the city
during the two months has been about
\$300 and if the \$30 for advertising,
and the cost of the special council
meeting to act on the sale and the
time of various city employees were
figured in the cost of selling these
horses would doubtless exceed \$400.
When the bids were opened the highest
offer for the entire lot was just \$400.
It was a cheap lot of horses but it was
no cheap job getting rid of them.—Ex.

OLD JOB IS FINISHED

St. Louis Savant Works Half
Century on Aristotle's Book.

Dr. Denton J. Snider, Leading Writer
on Philosophical and Psycho-
logical Subjects, Finally
Completes Long Task.

St. Louis, Mo.—Dr. Denton J. Snider, St. Louis savant, who has been pronounced by eminent American and European critics the leading writer on philosophical and psychological subjects, has just completed the final work in his system of universal psychology.

The new book is entitled "The Bioscosmos," and is an exposition of the life of nature psychologically treated. Specifically it treats of the science of biology in its widest sense. In Dr. Snider's system this is the third part of nature, as the whole is conceived. Scientists and the world of letters have been following the progress of Dr. Snider's labors during many years, and his announcement that the entire work is completed is one of the important literary items of the season.

In this tremendous work the dream of the Greek philosopher Aristotle, and later that of Herbert Spencer, of accumulating all there was of definite knowledge and weaving it into a vast, comprehensive system, to be a monument for future ages, has been realized by the St. Louisian.

Aristotle accomplished what he set out to do, and in a measure Spencer was successful, but in the system of the English thinker there are certain gaps, such as history and esthetics. These gaps are filled, and the progress in learning since Aristotle's time is supplied in Dr. Snider's new system.

The works of Dr. Snider number more than 36, but the essential ones included in his new science are 16. The entire subject is grouped under seven general heads: Organic psychology, psychology of philosophy, psychology of nature, psychology of art, psychology of institutions, psychology of history and psychology of biography.

For more than half a century Dr. Snider has been gathering the materials for and working upon his system. Most of his labors were performed in St. Louis, but in the course of his investigations he visited foreign countries, where he was able to bring into play the dozen or more languages of which he is master.

During the years of toil he was not the absorbed, solitary scholar, such as Faust is represented, "buried in dusty volumes and away from the world." He has taught a large following of students in classes that at times numbered well into the hundreds.

These classes were unique and were the beginnings of a sort of world's university which Dr. Snider hopes will survive him and use the materials he has created. In recent years the classes, open to all, have been held in the branch library buildings.

Books were given to the students without charge by their author, and the talks and lessons were by Dr. Snider himself. Now there are a number of classes conducted by former pupils, who have mastered the system.

BREAKS HER LEG ON A BOAT

Woman's Physician Happened to Be
on Same Vessel and She Is
Given Quick Attention.

Philadelphia.—Just after she had re-
marked to a fellow passenger that she
had enjoyed her outing immensely
and was glad that no accident had
marred the journey, Mrs. Mary E.
Fries, seventy-three years old, of 855
North Fortieth street, who, in com-
pany with her five sons and a daugh-
ter, had been attending a church pic-
nic at Burlington Island park, tripped
over a hawser on the boat in which
she was making the return trip and
fell to the deck, injuring herself seri-
ously.

Seeing her mother slip, the daugh-
ter, Cynthia Fries, made an ineffectual
effort to save her from striking the
deck. By a remarkable coincidence,
Mrs. Fries was treated for her in-
juries by Dr. William C. Barrett, who
for thirty-five years had been the fam-
ily's regular practitioner, and who
was returning from Trenton on the
same boat, unconscious of the prox-
imity of his friends.

The aged woman had secured a good
seat on the upper deck as the vessel
left the landing. When they were in
midstream two attaches of the boat
line asked her to move. As she arose
from her seat Mrs. Fries lost her bal-
ance and fell to the deck. While Dr.
Barrett was examining her injuries,
which proved to consist of a fractured
leg, Dr. R. B. Wolf of St. Timothy's
hospital, improvised splints from
pieces of wood lying near by. Upon
reaching the city the woman was tak-
en to the Presbyterian hospital.

Onions Are Enjoined.
Des Moines, Iowa.—Judge De Graff,
who, by a mandatory injunction, a
few weeks ago, effectively ended the
street car strike, has issued an in-
junction against the odor of cooking
onions. Lawyers who have offices in
the Iowa Loan and Trust building
told the court they did not relish the
odors which escaped from the chim-
ney of a restaurant across the alley.
Judge De Graff ordered the restaurant
company to raise its chimney high
enough to carry the odors above the
attorneys' offices.

Deafness Cannot be Cured
by local applications as they cannot

There is only one way to cure deaf-

this tube is inflamed you have a rum-

when it is entirely closed deafness is
the result, and unless the inflamma-
